

## TABLE OF CONTENTS

<b>Preface</b> .....	<b>i</b>
<b>List of contributors</b> .....	<b>v</b>
<b>List of participants</b> .....	<b>vii</b>
<b>PART 1 SEASONAL CLIMATE FORECASTS IN CONTEXT</b> .....	<b>1</b>
<b>Chapter 1 Introduction</b> .....	<b>3</b>
<b>Chapter 2 Seasonal forecasts in decision making</b> .....	<b>13</b>
2.1 Climate variability and change: the overlaps and the differences.....	14
2.2 A history and status of seasonal to interannual predictions in decision making .....	19
2.3 Climate-related decision making under uncertainty .....	27
2.4 Identifying the users and the uses .....	35
2.5 The importance of climate in key development sectors.....	38
<b>PART 2 THE PRODUCTION OF SEASONAL CLIMATE FORECASTS</b> .....	<b>45</b>
<b>Chapter 3 Overview of seasonal forecasting</b> .....	<b>47</b>
3.1 Introduction .....	48
3.2 Modelling the coupled system .....	52
3.3 Ingredients of a physically-based forecast system.....	56
3.4 How accurate are seasonal forecasts.....	60
3.5 Summary .....	67
<b>Chapter 4 Ocean-Atmosphere basis for seasonal climate forecasting</b> <b>69</b>	
4.1 The role of the atmosphere .....	70
4.2 The role of the ocean in the climate system.....	75
4.3 The nature of the prediction problem .....	88
<b>Chapter 5 Getting the coupled model ready at the starting blocks</b> .....	<b>93</b>
5.1 Data assimilation overview .....	94
5.2 Data assimilation for prediction.....	97
5.3 Observing systems .....	110
5.4 Impact of oceanic data assimilation on seasonal forecasts .....	116
5.5 Data assimilation: an outlook .....	119
5.6 Mathematical appendix.....	122

<b>Chapter 6 Modelling the atmospheric, oceanic and coupled system.</b>	<b>129</b>
6.1 Atmospheric models .....	130
6.2 Ocean modelling.....	140
6.3 Coupled modelling of the atmosphere-ocean system .....	151
<b>Chapter 7 Statistical modelling.....</b>	<b>167</b>
7.1 Introduction .....	168
7.2 Statistical modelling for climate prediction.....	169
7.3 Building a statistical prediction model .....	173
7.4 Alternative statistical methods to linear regression .....	189
<b>PART 3 CALIBRATION AND ASSESSMENT OF SEASONAL CLIMATE FORECASTS .....</b>	<b>207</b>
<b>Chapter 8 From dynamical model predictions to seasonal climate forecasts .....</b>	<b>209</b>
8.1 Introduction .....	209
8.2 One-tiered and two-tiered forecasting .....	210
8.3 Systematic model error correction.....	215
8.4 Statistical downscaling .....	224
8.5 Using ensembles.....	232
8.6 Combining forecasts.....	236
8.7 Summary .....	239
<b>Chapter 9 An introduction to probability forecasting.....</b>	<b>241</b>
9.1 Introduction .....	241
9.2 Probability forecasts: why issue them and what are they?.....	243
9.3 Basic probability concepts.....	246
9.4 Recalibration and combination .....	252
9.5 Summary .....	263
<b>Chapter 10 How do we know whether seasonal climate forecasts are any good?.....</b>	<b>265</b>
10.1 Introduction .....	266
10.2 Attributes of good probability forecasts .....	267
10.3 Properties of summary measures for probability forecasts.....	286
10.4 Summary measures for probability forecasts.....	290
10.5 Summary .....	296
<b>PART 4 DEVELOPING SUCCESSFUL APPLICATION STRATEGIES.....</b>	<b>297</b>
<b>Chapter 11 Communicating seasonal forecasts .....</b>	<b>299</b>
11.1 Learning to manage climate risk in development.....	300
11.2 Seasonal to interannual prediction: An overview of its role in decision making.....	304

<b>Chapter 12 Building national and specialised climate services .....</b>	<b>323</b>
12.1 The genesis of seasonal forecast needs in the Maghreb .....	324
12.2 Mitigating El Niño/Southern Oscillation (ENSO) effects in the Southeastern U.S. for agriculture and wild fires.....	342
12.3 Appendix .....	358
<b>Chapter 13 Water, health and early warnings.....</b>	<b>361</b>
13.1 Introduction .....	361
13.2 Application of seasonal climate forecasting in water resources management.....	362
13.3 Applications of seasonal forecasts to the health sector.....	378
13.4 Early warning systems.....	390
<b>PART 5 THE FUTURE OF SEASONAL CLIMATE FORECASTING     .....</b>	<b>411</b>
<b>Chapter 14 A way forward for seasonal climate services .....</b>	<b>413</b>
14.1 The Science .....	413
14.2 Communication and integration .....	419
14.3 Getting there .....	421
14.4 Goodbye Cinderella, Hello “Seamless Future” .....	424
<b>Acronyms .....</b>	<b>427</b>
<b>Glossary of terms .....</b>	<b>433</b>
<b>References .....</b>	<b>453</b>
<b>Suggested further reading .....</b>	<b>465</b>
<b>Index .....</b>	<b>471</b>
